

WIPER MOTORS

DL3U

Our **brand-new UK-manufactured DL3 wiper motor** has been engineered to retain the classic Lucas appearance while incorporating modern improvements for enhanced reliability and performance.

Made in the UK by Powerlite

100% brand-new unit – no remanufactured components

Suitable for both Right-Hand Drive (RHD) and Left-Hand Drive (LHD) vehicles

Two-speed operation as standard

Internally re-engineered for improved performance and durability.

Precision bearings replace the original bronze bushes, reducing friction, improving efficiency and extending service life

Integrated thermal overload protection to safeguard the motor under excessive load.

Interchangeable pressed-steel top plate, allowing the original Lucas identification plate/OE number to be retained for an authentic appearance.

Direct replacement for the original Lucas DL3 motor with improved modern engineering

Combining **original period appearance with modern manufacturing techniques**, the new DL3 delivers smoother operation, greater reliability and a longer service life than the original design - making it the ideal choice for concours restorations, regular road use and high-quality classic vehicle rebuilds.
