

BRITISH CLASSIC ALTERNATOR UPGRADE

RAC069

Lucas style A115 50 amp "left-hand" alternator, negative earth. A suitable replacement for all ACR type alternators.

Very versatile alternator that can be used in various applications. Can be used as a straight replacement for the Lucas ACR range, or as an upgrade doe an original dynamo.

The vehicle fitment table below has been extracted from OE data but is for refrence only - this unit can be fitted to many other applications.

Powerlite carry a range of alternator conversion kits and mounting brackets. We also have the terminal block to convert from a dynamo to an alternator (see below). Please [contact us](#) for more details!

RAC069	
Item	Value
Polarity	Negative
Voltage	12
Amps	50
Shaft size	15mm
