

STARTER MOTOR ACCESSORIES

PHS-274050

Powerlite Gold Heat Wrap Blankets can be used for a wide variety of applications. The reflective gold surface will deflect away 80% of all radiant heat, whilst the woven insulation polymers beneath offers protection from convectional heat transfer. These blankets are also designed to protect from harmful liquids and debris.

- Metalized polyamide polymer laminated glass cloth with a high temperature pressure sensitive adhesive for use in extreme environments.
- Continual operating temperature of 850°F.
- Can be cut and tailored for your own specific requirements and are easy to apply and remove.

Material : Fibreglass

Size : 1000mm x 1200mm
