ALTERNATOR CONVERSION KIT

ALKTA45RIGHT

Upgrade your classic car's charging system with a **Powerlite 45 Amp Alternator Conversion Kit**.

Designed to replace your original Lucas dynamo or lower-output alternator, our kits contain everything you need for a straightforward conversion.

This kit is for A Series engines with a “right hand” mounted alternator (see pictures)

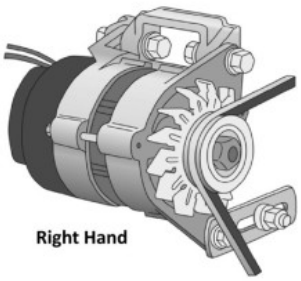

Each kit includes:

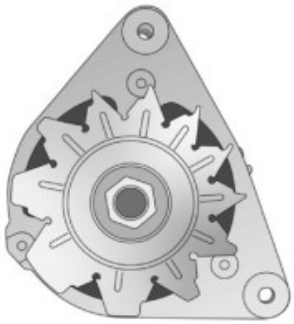

- Brand new 45 amp alternator
- Dynamo-to-alternator conversion block
- New fan belt
- All necessary mounting brackets and hardware

A complete conversion kit in one convenient package!

Please contact us for more details!
