BRITISH CLASSIC ALTERNATOR UPGRADE

LCA1N

Upgrade your classic car with a brand-new **Lucas Type 18 ACR "right hand" 50 Amp Alternator**, built and tested in the UK by **Powerlite.**

Delivering **47% more output than the original 34-amp ACR**, this alternator combines authentic Lucas styling with upgraded internal components for improved performance, backed by a **3-year / 15,000-mile Powerlite warranty**.

Each unit is fitted with an original-style fan and pulley and features the iconic Lucas ACR rear cap, preserving the classic appearance of your engine bay.

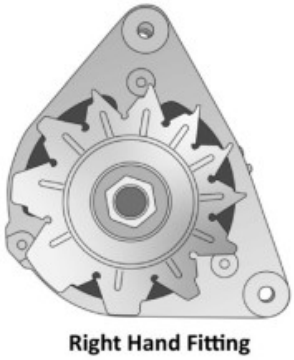

Supplied in **bespoke Lucas packaging**, complete with full, easy-to-follow fitting instructions.

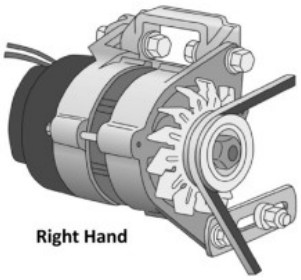

The included **dynamo-to-alternator conversion terminal block** simplifies the electrical connections when converting from an early dynamo to an ACR alternator. A full range of conversion hardware will be available soon.

We also have a "left-hand" version available: **LCA1LN**

Classic Lucas looks. Improved Powerlite performance.
