

Data sheet: PS-30 performance lithium battery

- **Lightweight**
- **High performance**
- **Compact**
- **Fast recharge**
- **Integrated BMS**
- **LiFePO4 technology**
- **Maintenance free**
- **Low self-discharge**
- **High cycle count**
- **Supplied with 2A charger**

Specification	PS-30
Dimensions W x D x H (mm)	164 x 124 x 175
Weight (g)	2700g
Technology	LiFePO4
Nominal Voltage	12.8V
Capacity	30Ah, 204.8Wh
CCA (Cold Cranking Amperes)	800
Current charge	30A
Max. continuous charge current	30A
End charge current	600mA
Cut-off voltage	15V
Max. discharge current	400A
Limited charge voltage	15.6V
Charge temperature range	From -15°C to 45°C
Discharge temperature range	From -15°C to 55°C
Storage temperature range	From -15°C to 45°C
Number of cells	8
Cell model	118725
Cell rated capacity	8Ah
Certifications	CE, UN38.3
Terminal size	M6
