Performance Alternators

RAC003FP

We have created a unique pulley system to fit the RAC003 lightweight alternator. The concept is to eliminate the possibility of the fan belt coming off in an over rev or missed gear situation. Tried and tested, the floating pulley, combined with Powerlite Race alternators, is the only solution.

Lightweight Universal fit alternator with two "offset" fixing lugs, complete with the revolutionary Powerlite "Floating Pulley" - designed to eliminate belt whip in race situations on applications such as Triumph TR6.

RAC003FP	
Item	Value
Amps	40 A
Shaft diameter	15 mm
Voltage	12 V
Weight	2.90 kg
Wiring configuration	RAC902
