High Torque Starter Motors

RAC199MS

All Austin "Big" Healey, 100/4, 100/6, 3000. BN1 > BJ8

All Austin "Big" Healey, 100/4, 100/6, 3000. BN1 > BJ8. Incredibly powerful, offset gear-reduced starter motor with a multi drilled plate for easier fitting. Based on a "Denso" style unit, this starter delivers huge cranking torque through a set of steel internal gears, drawing less current from the battery versus an original unit. Lightweight, compact and durable this unit uses minimum efficiency whilst delivering maximum power and has dual polarity.
