High Torque Starter Motors

RAC418A

Direct replacement for original unit. FITS 132T RING GEAR ONLY. CHECK THE NUMBER OF TEETH BEFORE FITTING

Lotus Cortina with a 132 tooth ring gear. Incredibly powerful, offset gear-reduced starter motor. Based on a "Denso" style unit, this starter delivers huge cranking torque through a set of steel internal gears, drawing less current from the battery versus an original unit. Lightweight, compact and durable this unit uses minimum efficiency whilst delivering maximum power and has dual polarity. See RAC418 for 110 tooth ring gear and RAC418B for 135 tooth ring gear.

RAC418A

Make	Model	Engine Size	Year
Ford	Cortina MK2	1600	1962 - 1970
