

Made in the UK 

High Torque Starter Motors

RAC441

Direct replacement for original unit with a circular boss mounting. Suitable for Ford Sidevalve engines in 8 or 10 HP. Please check fitment first!

Ford E93a or Ford Sidevalve engine (sometimes known as the "English Sidevalve") Strong, powerful, offset gear-reduced starter motor, delivering huge cranking torque through a set of steel internal gears. Lightweight, compact and durable this unit starts the engine faster with immense power, whilst drawing less current from the battery.
