

Made in the UK 

High Torque Starter Motors

RAC456

Check fitment with Powerlite. Check weather original pinion is 29mm or 34mm. RAC456 ready for 29mm, for 34mm please see RAC456A

Incredibly powerful, offset gear-reduced starter motor. Based on a "Denso" style unit, this starter delivers huge cranking torque through a set of steel internal gears, drawing less current from the battery versus an original unit. Lightweight, compact and durable this unit uses minimum efficiency whilst delivering maximum power and has dual polarity.
