High Torque Starter Motors

RAC480

Direct Replacement for Bosch unit on BMW M78 and M328 engines with cradle mounted starter.

Incredibly powerful, offset gear-reduced starter motor. Based on a "Denso" style unit, this starter delivers huge cranking torque through a set of steel internal gears, drawing less current from the battery versus an original unit. Lightweight, compact and durable this unit uses minimum efficiency whilst delivering maximum power and has dual polarity.
