High Torque Starter Motors

RAC501

Westfield with Ford Zetec engine. With Westfield sump, Zetec flywheel and type 9 gearbox.

Westfield with Ford Zetec engine. With Westfield sump, Zetec flywheel and type 9 gearbox. Incredibly powerful, gear-reduced starter motor. Based on a "Visteon" style unit, this starter delivers huge cranking torque through a set of internal gears, drawing less current from the battery versus an original unit. Lightweight, compact and durable this unit uses minimum efficiency whilst delivering maximum power.
