

Made in the UK 

High Torque Starter Motors

RAC530

Now available from Powerlite, yet another “world’s first” invention - the smallest ever starter motor for the MGB – the MicroStart! Weighing less than 3 kilos, this tiny unit kicks out 1.3 kW of high torque power via an epicyclic gearbox. The nose cone is machined out of sturdy, solid aluminium and features an embossed Powerlite logo. The entire unit is not much longer than a ballpoint pen – perfect for tight, compact race engines. The MicroStart RAC530 will be a straight replacement for the MGB / MGC with the pre-engaged starter – watch this space!(Please note this unit is only suitable for Negative earth applications)

MGB, MGC pre-engaged replacement MicroStart
