Performance Alternators

RAC680

Porsche 914 160 Amp Alternator. Supplied with a fan belt, battery positive lead and warning light cable.

Alternator and Fitting Kit : Incredibly powerful, high output alternator for Porsche 914 . 100% new and built with the very best OE rated parts, this alternator will produce high current at low RPM, with a maximum output of 160 amps – perfect for modern day motoring. The modern, high output design of the unit means it will easily cope with the addition of high draw ancillaries like air conditioning. Supplied with a fan belt, battery positive lead and warning light cable, it is a complete “plug and play” solution to replace the old Bosch style unit.
