High Torque Starter Motors

RAC811

Exclusively available from Powerlite, yet another “Slimline” unit that is a straight replacement for the MGB / MGC originally fitted with the pre-engaged starter. Weighing just 3.0 kg, the Slimline comes fitted with a “multi-mount” adaptor plate for easy fitting in tight situations – perfect for motorsport applications where space is at a premium. Although small and compact, this Slimline unit is deceptively powerful, kicking out 1.6 kW of high torque power from the epicyclic gearbox. Coming soon – watch this space! Designed for neagtive earth vehicles only

All MGB and MGC vehicles that were fitted with a pre-engaged starter motor. Negative earth only. Deceptively powerful, this unit features an epicyclic in-line gear box which delivers extra power when engaged and an internal solenoid. Lightweight, durable and easy to fit, this unit delivers a huge amount of power for such a small unit. Designed for negative earth vehicles only.
