VAL10015

Top quality, lightweight performance alternator pulley. CNC manufactured from billet aluminium by us here at Powerlite. A direct fit for our RAC068 competition alternator, the extended diameter helps reduce RPM - a bonus on hard revving engines. Fitted as standard on RAC068R

Lightweight aluminium pulley - 100mm diameter, 15mm shaft. Direct Fit on RAC068 Alternator for Competition use or fitted to RAC068R as standard.

VAL10015
