

Why Choose a Dynalite from Powerlite Units?

Over the last year or so we have been often asked *“Why should I buy a Dynalite when there are cheaper alternatives in the market place?”*

Whilst we welcome the competition, we need to make clear that there are two very different types of this product. We were the original manufacturers of the Dynalite and all our products are hand built here in the UK – the cheap products on offer are a poor imitation of our original idea, built in Asia at a budget price using poorer quality components.

*Ask yourself, if something is so much cheaper, is there a catch?
The answer is usually yes!*

The cheap option is great if you want something cheap, but potentially horrendous if you really love your car and want a “proper job” – a unit that is tried, tested, and backed by a reputable auto electrical company.

Just take a look at the following before you decide.....

Ask yourself.....	DYNALITE	CHEAP COPY
Is it an original idea?	✓	✗
Are they hand made in the UK?	✓	✗
Are the component parts designed, tested, race proven and sourced by the UK manufacturer?	✓	✗
Are they designed and tested by auto electricians?	✓	✗
Do they come with a full set of fitting instructions and a wiring diagram?	✓	✗
Does it come with full technical support and customer after service from auto electricians?	✓	✗
Is it backed by over 40 years of Auto Electrical experience?	✓	✗
Does it come with a LIFETIME warranty?	✓	✗
